System definitions:

Discharge Letters - the ability to electronically generate and send detailed discharge letters to GPs and other relevant HCPs, when a patient is discharged from hospital-based services.

Diagnostic Reporting - test results which are electronically transmitted to the clinician who ordered them, with receipt acknowledgement.

Digital Dictation - device used for recording and managing natural speech, allowing staff to verbally input a patients' note into a system without having to manually input it.

Bed Management - real-time bed states are viewable and accessible, enabling more efficient management of bed occupancy and patient movements.

Should you need any further assistance, please do not hesitate to contact me at the address below.

If you are dissatisfied, with the way your request has been dealt with by PTHB, you have the right to request a review in which case you should write to:
