Powys Response:

Powys Teaching Health Board does not have a dermatology department. Patients requiring the drugs listed are treated by providers outside of Powys.

Powys commissions dermatology services from several Welsh health boards and English provider organisations. Unfortunately, providers do not currently routinely link the drugs that they use to the indication for treatment. The health board is working closely with providers to ensure that this information can be provided in the future. However, due to the quality of the information currently received by the health board, we do not hold the information requested. We therefore recommend that our providers are approached directly:
