Dear [REDACTED]

Request under the Environmental Information Regulations 2004

I write further to your request for information, which was received on 25 April 2024, to confirm, in accordance with S.1(1)(a) of the Environmental Information Regulations 2004, that Powys Teaching Health Board (PTHB) does hold the information that you require.

For ease of reference your request is set out below and my response follows.

Your Environmental Information Regulations (EIR) Request:

I am carrying out some research for a report, trying to ascertain preparedness for carbon zero in the public sector. I am particularly interested in public sector organisation's understanding of current energy usage.

I would like to know:

- a) The total number of electric, gas, fuel & water meters the organisation has (billing meters and sub-meters).
- b) The number of those meters that are manually read & recorded.
- c) The number of those meters that are AMR (Automated Meter Reading) meters.
- d) Across how many sites the meters distributed.

Please note that I am only interested in the organisation's buildings - not domestic buildings associated with the organisation.

It might be helpful to see an example format for the requested data:

Total number of meters: 100

Manually read: 75

Automatically read: 50

Sites: 5
