Powys Response:

I can confirm that PTHB does not initiate treatment with any of the medicines listed; patients are treated by providers outside of Powys. PTHB commissions services from a number of Welsh health boards and English provider organisations.

Due to the complex nature of PTHB’s commissioning arrangements, not all of our providers indicate the indication for use for each episode of care where these drugs are used. For this reason, PTHB does not hold the data relating to your request, however, the health board is working closely with providers to ensure that this information can be provided in the future. We therefore recommend that you approach our providers for this information directly:
