Powys Response:

I can confirm that Powys Teaching Health Board (PTHB) does not directly diagnose, treat or test patients for Chronic Lymphocytic Leukaemia (CLL). PTHB is a non-acute care provider and therefore does not directly provide an oncology service or undertake clinical trials. Patients are treated by providers outside of Powys. PTHB commissions services from a number of Welsh health boards and English provider organisations.

Due to the complex nature of PTHB’s commissioning arrangements, not all of our providers indicate the indication for use for each episode of care where these drugs are used. For this reason, PTHB does not hold the data relating to your request, however, the health board is working closely with providers to ensure that this information can be provided in the future. We therefore recommend that you approach our provider organisations directly for this information. The table below lists the main health boards and NHS Trust from which we commission health services for Powys residents. Please note that all providers may not necessarily offer services that fall within the definition of your request.
